

Product Information

www.vdo.com

Product features :

- Screen size 7" / 16:9
- Innolux high brightness panel
- With built-in controller, up to 2 camera inputs
- Video signal(V1/V2) can be selected by pressing "CAM SELECT" key on the monitor
- Mirror/Normal image can be set by pressing "MIR/NOR" key on the monitor
- Automatically turn on once vehicle is placed in reverse
- Day/Night sensor to auto adjust the screen brightness according to surrounding luminance
- Short circuit protection, Overload protection

Specification

Model No	
Screen Size	7" / 16:9 (Innolux high brightness panel)
Brightness	350cd/m ²
Resolution	336960pixels
Contrast ratio	300:1
Wide view angle(CR>10)	up/ down:40/60 left/right:60/60
Video input	2 Channels
Color system	PAL/NTSC
Housing protection class	IP30
Power supply	12V / 24V DC
Power consumption	≤7W
Operating temperature	-20℃ to +70℃
Storage temperature	-30℃ to +80℃
Dimension	180mm(L)×124mm(W)×50mm(D)
Weight Approx	560g
