

Product: OCEAN LINE	Description SUMMARY TACHOMETER OPERATION	Date Oct 04
Type: Electrical		Issue 1

Part # 02 012 150 – 4000 RPM w/ EHM

- works at both 12 & 24 V (carton labels indicates 12V)
- works with all waveforms (square, sine, peak) using a multifunction generator
- has terminals 1,2,3,4,5,8
- works with alternator, mag inductive sender, gen sender

Part# 02 012 126 – 3000 RPM w/ EHM

- Same as above

Part#02 012 130 – 6000 RPM w/ EHM

- works at both 12 & 24V
- has terminals 1,2,3,4,5
- terminal 4 accepts all waveforms through first half of frequency range, then the peak waves are not recognized
- works with ignition, inductive, and generator signals

Part# 02 012 426 – 3000 RPM w/o EHM

- works at 12 & 24V
- works with all waveforms
- has terminals 1,2,3,4,5 – mag inductive will not work
- works with ignition & alternator

Part# 02 012 430 – 4000 RPM w/o EHM

- same as above

Part# 02 012 434 – 6000 RPM w/o EHM

- works at 12V only!
- works with ignition, inductive, and generator signals
